Fullstack Software Engineer

Fullstack Software Engineer with 5+ years of experience building and scaling web applications using React, TypeScript, Node.js, and SQL. Experienced in modern frontend architecture, performance optimization and CI/CD automation. Contributed to products serving over 100,000 monthly users and delivered measurable improvements in conversion rates, performance, and developer productivity.

WORK EXPERIENCE

Crewfare • Remote Software Engineer

02/2025 – Present

- Developed and shipped customer-facing features for an event-travel platform serving over 100,000 monthly users.
- Rebuilt a legacy booking platform using React, TypeScript, and modern frontend architecture, contributing to a 2× increase in conversion rate
- Reduced technical debt by modernizing legacy architecture and improving code maintainability.

Harmonit Software Engineer

11/2023 – 10/2024

- Implemented new features and optimizations on a ERP system, resulting in a 60% decrease in page load times, enhancing user experience and overall system efficiency.
- Enhanced user interface performance by 40% through the implementation of React, TypeScript, TailwindCSS, and various UI tools, resulting in improved user satisfaction and engagement.
- Delivered features by collaborating with 20+ developers in a fast-paced environment, ensuring seamless communication across teams.
- Mentored and guided 6 new developers, resulting in an improvement in code quality, leading to a more efficient and seamless project delivery process.

FRG Informática • Brazil Software Engineer

04/2021 – 11/2023

- Developed a scalable web ERP application for over 10,000 users using React and TypeScript, leading to a seamless user experience and improved operational efficiency.
- Streamlined software loading process, achieving a 60% improvement through packaging enhancements and the creation of a multi-modular microfrontend system with Single-SPA, resulting in enhanced application performance and user satisfaction.

Trainee Developer

- Mastered over 40 development courses within 8 months, excelling in web programming with HTML, CSS, JavaScript, and REST APIs, establishing a strong foundation for software development.
- Collaborated with team members to troubleshoot and debug code, ensuring seamless functionality of software applications

SKILLS

Languages: TypeScript, JavaScript, SQL

Frontend: React, Next.js, TanStack Start, HTML, CSS, TailwindCSS, Zustand, Single-SPA, Vitest, Jest

Backend: Node.js, Hono, Express, REST APIs, PostgreSQL, MySQL, Vitest, Jest

EDUCATION

Technologist in Systems Analysis and Development

FATEC • Brazil

Technical Course in Systems Development

ETEC • Brazil
